Page 2 56755-T

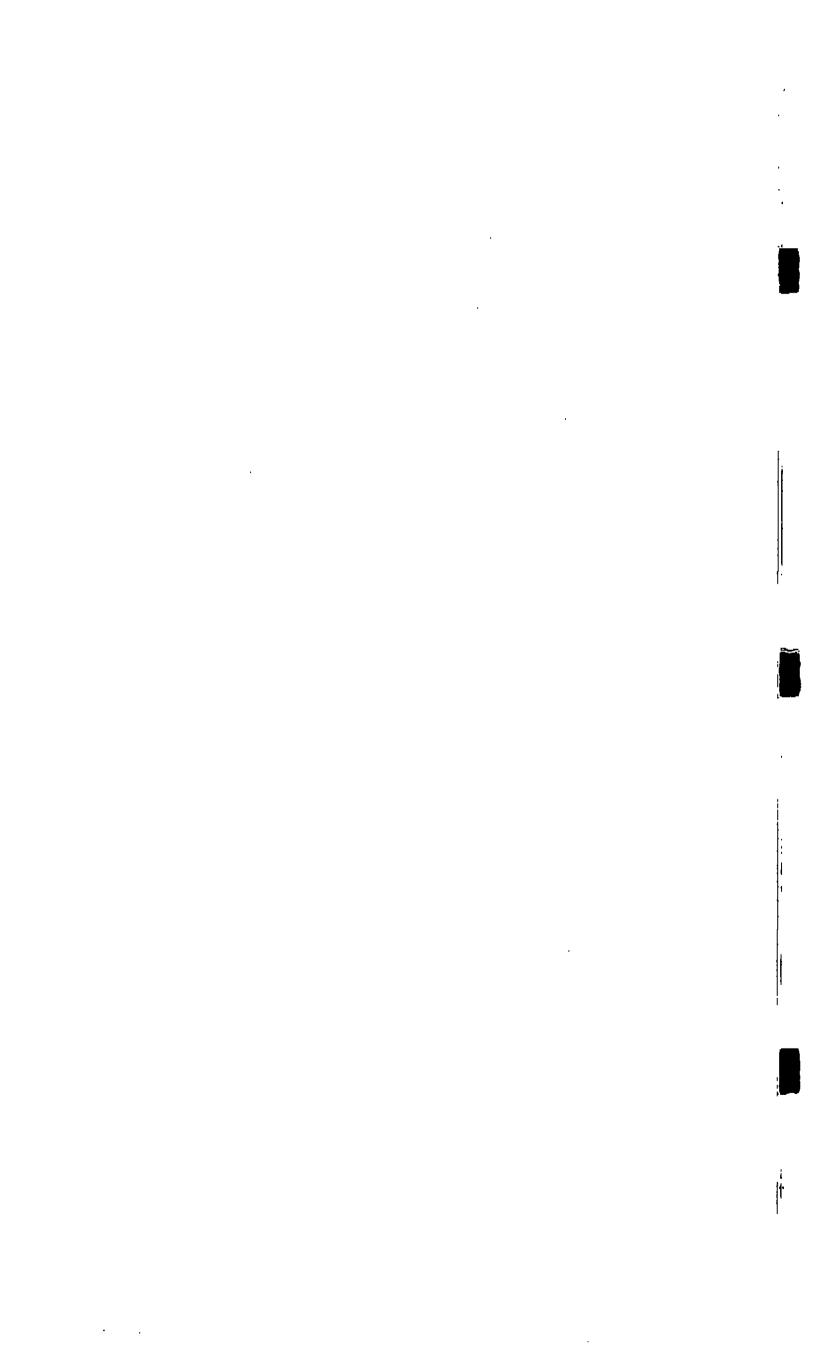

(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on November 20, 1992, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

PAGE 2 56755-T

Item 11.

Drilled wells, up to 100' in depth, with casing as described in letter of request for waiver of certain drilling regulations, from Independence Mining Company personnel, submersible pump, pipeline network to collection tank for treatment to remove certain chemical components, then discharge into tailings pond for re-use in mill circuit. These proposed wells are to be installed and operated under the direction of the Nevada Department of Conservation & Natural Resources, Division of Environmental Protection, and for such duration as is deemed to be required to accomplish the remediation.
